Boston CHNA-CHIP Collaborative Overview

8

Why are we here?

- We all have a stake in improving the community's health.
- Best practices for improving health: data-driven, engaged, and coordinated.
- We are building off of and expanding from previous collaborative efforts.
- Drivers of health touch upon every sector.

Thinking about Health Broadly

Social Determinants

What do we hope to accomplish?

- Conduct a **joint, participatory community health needs assessment** (CHNA) for Boston every 3 years
- Develop a **collaborative community health improvement plan** (CHIP) for Boston to address issues identified as top priority and identify opportunities for shared investment
- **Implement efforts** where aligned and track individual organizational activities where appropriate;
- **Monitor** and **evaluate** CHIP strategies for progress and impact to continuously inform implementation
- **Communicate** about the process and results to organizational leadership, stakeholders, and the public

11

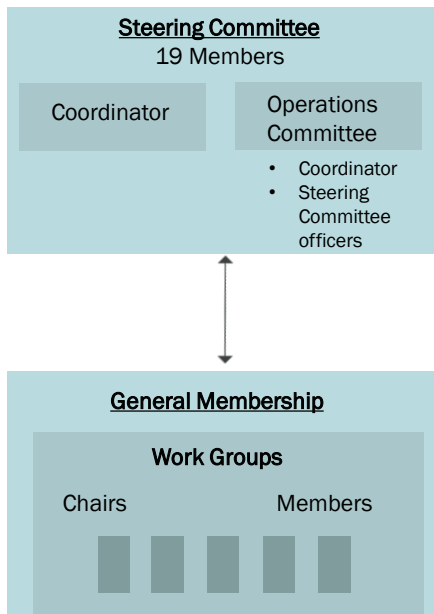

Shared Values

- **Equity:** Focus on inequities that affect health with an emphasis on race and ethnicity;
- **Inclusion:** Engage diverse communities and respect diverse viewpoints;
- **Data driven:** Be systematic in our process and employ evidence-informed strategies to maximize impact;
- **Innovative:** Implement approaches that embrace continuous improvement, creativity, and change;
- **Integrity:** Carry out our work with transparency, responsibility, and accountability;
- **Partnership:** Build trusting and collaborative relationships between communities and organizations to foster sustainable, community-centered change.
